Important Information **Regarding Property** Assessments This may affect your 2026 property taxes. The Board of Appeal and Equalization for Monroe Township will meet on the 8TH day of April 2025, at 11:00 AM, at the Wheels Across The Prairie Heritage Center. The purpose of this meeting is to determine whether property in the jurisdiction has been properly valued and classified by the assessor

If you believe the value or classification of your property is incorrect, please contact your assessor's office to discuss your concerns. If you disagree with the valuation or classification after discussing it with your Assessor, you may appear before the Local Board of Appeal and Equalization. The board will review your value and/or classification and may make changes as needed. You must appeal to the local board before appealing to the County Board of Appeal and Equalization.

The annual monthly meeting will be held following the Equalization meeting.

## 'Discovery Day' is April 6

The Murray County 4-H program is set to host a "Discovery Day" event on Sunday, April 6, at the Murray County 4-H Building from 12-3 p.m. This event is open to the public for all ages to attend. There will be youth and adult members there to talk on different project areas, volunteering, etc. Feel free to come and ask questions that you have about 4-H.

#### include park rules, notices and hunting seasons; guaranteed payment upfront to avoid any kind of honor system, which has been taken advantage of in the past; allowing visitors to book a campsite either at home or at the campground itself, viewing site availability prior to departure and giving visitors the ability to book for family reunions or larger gatherings.

There was discussion about using one of three costly onsite kiosk systems at the parks, but there was no appetite to use any such system.

The Park Board at its most recent meeting, a recommendation was made and approved to move all campsites at both parks to the only Firefly system by 2026, Kor said.

"The reason we're talking about this now is if it were approved, it would give us an

## Stopping ... a refresher course

Ask A

MN State Trooper

Sgt. Troy Christianson

Question: I have a new driver in the house. We were having some discussion on where a person needs to stop when coming to **Trooper** a stop sign and other situations. Can you please write about that? Thanks!

Here is what a person needs to know when it comes to stopping your vehicle.

- Stop Signs:
- Come to a complete stop at stop signs. • If there is a marked stop line, stop before
- the line

• If there is a pedestrian crosswalk, stop before entering the crosswalk.

• Yield the right-of-way to pedestrians, bicyclists, and traffic before proceeding.

#### Strategic Farming: Let's talk crops! session talks drones for field images, diagnosing problems and pesticide application

On March 19, Ryan Huffman, Iowa State University Digital Ag Innovation Lab senior research manager and Jorden Kuntz, founder of Biosphere Drone Solutions, joined UMN Extension crops educator Ryan Miller for a discussion about drones in row crop agriculture. This was the penultimate weekly episode of the a 'bird's eye' view of agronomic 2025 Strategic Farming: Let's talk crops! series of webinars.

Drones can be used to create aerial maps of farm fields, spray crops with crop protection chemicals or spread dry materials such as cover crop seed into a standing crop. Imagery-oriented drones provide

crops during the growing season using various sensors to detect reflectance of visible light wavelengths (400-700 nm) and / or near-infrared wavelengths (750-1,000 nm). Software can then be used to stitch the series of images collected by a drone's camera into a cohesive field map that can be used to inform

## **School Menus**

entire camping season to let campers know of this change for the next camping season, so no one's blindsided when they come in and there's not a cash box to do payment with check or cash," Kor said. "People can still call the office to do a payment over the phone."

"It sounds like a good system," Commissioner Todd Draper said. "With the kiosk deal, the first thing I thought about was vandalism. "I think this is a good option."

The system would not apply to seasonal campers.

In other business ...

• The board approved a quote of \$18,000 for roof repair at the RALCO building at the Lyon County Fairgrounds

• The board approved a quote from a Canadian company of \$62,243.88 (before potential tariffs take effect) for a new leachate pond aeration system as current aerators are at the end of their life and parts are no longer available due to model parts having been discontinued. This would be the first of its kind in Minnesota.

Obstructed View: • If your view of the intersection is obstructed, be prepared to stop again for traffic or pedestrians in your path.

> You can avoid a ticket — and a crash — if you simply buckle

Answer: Congratulations on the new driver. up, drive at safe speeds, pay attention and always drive sober. Help us drive Minnesota Toward Zero Deaths.

> If you have any questions concerning traffic related laws or issues in Minnesota send your questions to Sgt. Troy Christianson – Minnesota State Patrol at 2900 48th Street NW, Rochester MN 55901-5848. (Or reach him at, Troy.Christianson@ state.mn.us)

where to focus one's scouting efforts in a field.

Near-infrared light (750-1,000 nm wavelength) can provide additional information above and beyond visible wavelengths. Normalized difference vegetation index is a plant health index related to near-infrared wavelengths and an example of the type of highresolution data that can be collected by drone. NDVI data can be used to inform decisions in-season such as whether to replant sections of a field that have subpar plant stands or make a fungicide application to deal with a ground-truthed disease problem.

Drones designed for spraying crop protection chemicals can provide a bit more flexibility in-season than either a traditional ground-based or aerial spray rig.
